Redesigning a water heater

	COITUOI	<u>variants</u>	
	Supports different temparatures?	Pros	Cons
Slider	really good	quick 100°C easy 60° and 80° action action	turning off might be strange needs a lot of space
Voice Control	really good	no need to needs touch water almost no heater space	loud noises in kitchen
"+" and "-" Buttons	okay	needs less space	hard to set different degrees hard to display °F and °C at ter same time

control. Voice element can be displayed to make user aware of voice control functionality
